Sidrona	$15\frac{1}{3}\frac{1}{12}$ ferè	$1\frac{1}{6}$ in occ.
Salone Dalmatiæ	$15\frac{1}{4}$	$1\frac{1}{6}$ in occ.
Narbona	$15\frac{1}{4}$ ferè	1. in occ.
Scardona inſula	$15\frac{1}{3}$ ferè	$1\frac{1}{3}$ ferè in occ.

ANNOTATIONES.

In Rætiam.

RAETIA *diuiditur in Rætiam propriè dictam & Vindeliciam, hoc patet ex termino Rætiæ Orientali, quem Aenum fl. facit Ptol. Vindeliciam nimirum complectens.*

Aeni & Danubij confluxum Cuſ. & Rom. in lat. $47\frac{1}{2}$. Nou. & Mol. in $4\frac{1}{3}$ conſtituunt, ego in $47\frac{1}{4}$ ponendum puto propter Beodurum (quod ſitus nunc eſſe Paſſau Aeno proximum oſtendit) ab omnibus in lat. $47\frac{1}{4}$ collocatum.

Vicus non in lat. $45\frac{1}{3}$ ſed in $45\frac{2}{3}$ propter Alpes, ſupra quas exiſtit, ponendus eſt.

Eadem ratione Ebodurum & Ectodurum non in lat. $45\frac{1}{3}$. ſed in $45\frac{1}{2}\frac{1}{3}$ vt exiſtimo locanda ſunt.

In Noricum.

MEDIAM *curuaturam Cetij montis omnes conſtituunt in 37. $45\frac{2}{3}$. ſed lat. non conuenit propter Celiam, quæ ab omnibus in 37. $45\frac{1}{2}$. locata citra montem Cetium inueniri debet. Poſui ergo curuaturam hanc in $45\frac{1}{2}$. & Celiam in $45\frac{1}{12}$.*

In Pannoniam ſuperiorem.

BREGETVM *omnes in lat. $46\frac{2}{3}$ ponunt, ego in $46\frac{1}{2}\frac{1}{12}$ collocandum exiſtimo, quod nimis vicina Selmantia Germanica, & Narbonæ in Danubium exoneratio $47\frac{2}{3}$ latitudinem apud Ptol. habeant.*

Sauaria omnibus eſt in lat. $46\frac{2}{3}$. ſed procul dubio in $45\frac{2}{3}$ ponenda eſt.

Vanundriam omnes in lat. $45\frac{1}{3}$ ponunt, quum ſequētes ordine Bononia & Andautonium $45\frac{1}{2}\frac{1}{3}$ poſtulent.

Nouidunum Cuſ. & Rom. conſtituunt in latit. $45\frac{1}{6}$. reliqui in $45\frac{1}{2}\frac{1}{3}$. certum eſt his $\frac{1}{2}$ abundare propter præcedentes locos Andautonium & Bononiam. Veriſimile omnino eſt in $45\frac{1}{3}$ locandum eſſe.

Soroga Vil. Mol. & Nou. eſt in lat. $45\frac{1}{3}$. Rom. in $45\frac{1}{2}$. mihi videtur in $45\frac{2}{3}$ reponendum, niſi fortè in prioribus illis numeri lat. Sorogæ & Siſopæ ſint permutati, vt Soroga ſit in $45\frac{1}{2}\frac{1}{4}$. Siſopa autem in $45\frac{1}{3}$. in qua à me poſita eſt.

Viſontium propter ſequentes Prætorum & Magnianam lon. non $40\frac{1}{2}\frac{1}{2}$ ſed $40\frac{1}{2}\frac{1}{12}$ habere debet. In latitudine eius multum variant exemplaria, Cuſ. habet $45\frac{1}{4}$. Rom. $45\frac{1}{2}$. reliqui $45\frac{1}{3}\frac{1}{12}$. in his opinor $\frac{1}{12}$ fractionem à longitudine in lat. tranſpoſitam eſſe, & pro $\frac{1}{3}$ ponenda eſſe $\frac{2}{3}$. poſui ergo in $45\frac{2}{3}$.

In Pannoniam inferiorem.

SAI *à Danubio diuertigium & Taururum eodem loco aſſignantur, quemadmodum & Narabonis confluxus ac Celmantia, ideò hi confluxus peculiares orbiculos non habent in tabula.*

Flexus Danubij iuxta Acumincum propter Acuminci ſitum non in lat. $45\frac{1}{2}\frac{1}{12}$. ſed in $45\frac{1}{3}\frac{1}{12}$ cōſtituendus eſt.

Sallis in exemplaribus lat. habet $44\frac{2}{3}$. ſed ſequentes Baſſiana & Sirmium hanc non patiuntur, poſui ergo in $45\frac{1}{6}$.

In Illyridem.

ILLYRIDIS *& Iſtriæ communis terminus parte Septētrionali in $36\frac{1}{2}$. $45\frac{1}{6}$. Meridionalis verò in $36\frac{1}{2}$. $44\frac{1}{2}\frac{1}{3}$ à Ptol. ponitur, nullo fluuij addito nomine, at in Italiæ deſcriptione lib. 3. c. 1. annotant Vill. & Mol. ex Italico manuſcripto codice Arſiam. flu. terminum Iſtriæ & Italiæ in $36\frac{1}{2}$. $45\frac{1}{3}$. Vnde conſtat hoc Illyridis termino Arſiam fl. hic à Ptol. deſignari, & nomen fluuij vicio ſcribarum omiſſum eſſe.*

Tediaſtum Cuſ. & Rom. ponunt in long. 39. reliqui in $38\frac{2}{3}$. exiſtimo in $39\frac{2}{3}$ locandum.

Aſiſia à Cuſ. & Rom. in lat. $44\frac{2}{3}$ locatur, ſed præcedens Arauzona $44\frac{1}{4}$ poſtulat.

Blanona in Nou. lat. habet $44\frac{1}{6}$. in reliquis $44\frac{1}{2}$. exiſtimo in $44\frac{1}{4}$ propter præcedentem Sidronam reponi debere.

Drilon inquit Ptol. fluit ex monte Scardo, alteroq; fonte ex monte qui ſitus eſt in $45\frac{2}{3}$. $40\frac{1}{3}$. & ab hoc eodem fluit Drinus fl. qui in Sauum flexit ab Occidentali parte Taururi ciuitatis.
