My dear Sir:^c

I am in receipt of yours of June 2nd¹ asking for copies of the four articles mentioned in the enclosure as having appeared in the Philosophical Review.² There has since been an article entitled "Kant's Relation^d to Utilitarianism"³ by Norman Wilde.⁴ It appeared in the May number of the Review. I have instructed the publishers, Messrs. Ginn & Co., of Boston, to forward you the four numbers of the Review containing these five articles. It gives me much pleasure to put into the hands of so eminent a Kant scholar these copies of our Review.

Very sincerely yours,

J. G. Schurman^e
