Prof. Dr. Vaihinger, Halle a S.,

Dear Professor Vaihinger:

According to your request for material in behalf of the "Kantstudien" I have asked Dr Buchner¹ to prepare a notice of a work² of mine just published on the "Philosophy of Knowledge", so far as this work interprets and critiques the positions of Kant.

I enclose a notice of a Kant "Seminar"³ which I expect to hold through next | year, with a class of graduate students of philosophy. A similar Seminary this year⁴ has had some twenty-five members, engaged in the study of the "Kritik der reinen Vernunft". Several pieces of work in preparation of Kantiana for doctor's thesis⁵ are already given out; and should they seem worthy, when finished, I will take the liberty to call your attention to them.

I am, sincerely yours,

George Trumbull Ladd

A rapid reading of Kant's ethical writings will be followed by a more careful study of the Critique of Judgment, as a basis for discussing the principal conceptions in the philosophy of the beautiful. After an expository and critical lecture, a paper upon a topic given out some time in advance will be read, to be followed by discussion on the part of both teacher and class.
