

AMERICAN CHEMICAL SOCIETY LICENSE
TERMS AND CONDITIONS

Dec 01, 2025

This Agreement between Felix Niebisch ("You") and American Chemical Society ("American Chemical Society") consists of your license details and the terms and conditions provided by American Chemical Society and Copyright Clearance Center.

| | |
|------------------------------|---|
| License Number | 6094201238516 |
| License date | Aug 22, 2025 |
| Licensed Content Publisher | American Chemical Society |
| Licensed Content Publication | Analytical Chemistry |
| Licensed Content Title | Chiral PEDOT-Based Enantioselective Electrode Modification Material for Chiral Electrochemical Sensing: Mechanism and Model of Chiral Recognition |
| Licensed Content Author | Liqi Dong, Youshan Zhang, Xuemin Duan, et al |
| Licensed Content Date | Sep 1, 2017 |
| Licensed Content Volume | 89 |
| Licensed Content Issue | 18 |
| Volume number | 89 |
| Issue number | 18 |
| Type of Use | Thesis/Dissertation |
| Requestor type | Author (original work) |

| | |
|---|---|
| Format | Print and Electronic |
| Portion | Table/Figure/Micrograph |
| Number of Table/Figure/Micrographs | 1 |
| Title of new work | Lösungsmittelbasierte Synthese gewinkelter Graphen Nanoribbons und elektrochemische Synthese inhärent chiraler Polymerfilme |
| Institution name | Bergische Universität Wuppertal |
| Expected presentation date | Oct 2025 |
| Portions | Figure 5. |
| The Requesting Person / Organization to Appear on the License | Felix Niebisch |
| Requestor Location | Mr. Felix Niebisch Augustastr. 38 Wuppertal, 42119 Germany |
| Payment Type | Invoice |
| Billing Address | Mr. Felix Niebisch Augustastr. 38 Wuppertal, Germany 42119 |
| Total | 0.00 EUR |
| Terms and Conditions | |

American Chemical Society's Policy on Thesis and Dissertations

If your university requires you to obtain permission, you must use the RightsLink permission system.

See RightsLink instructions at <http://pubs.acs.org/page/copyright/permissions.html>.

This is regarding request for permission to include **your** paper(s) or portions of text from **your** paper(s) in your thesis.

Permission is now automatically granted; please pay special attention to the **implications** paragraph below. The Copyright Subcommittee of the Joint Board/Council Committees on Publications approved the following:

Copyright permission for published and submitted material from thesis and dissertations

ACS extends blanket permission to students to include in their thesis and dissertations their own articles, or portions thereof, that have been published in ACS journals or submitted to ACS journals for publication, provided that the ACS copyright credit line is noted on the appropriate page(s).

Publishing implications of electronic publication of thesis and dissertation material

Students and their mentors should be aware that posting of thesis and dissertation material on the Web prior to submission of material from that thesis or dissertation to an ACS journal may affect publication in that journal. Whether Web posting is considered prior publication may be evaluated on a case-by-case basis by the journal's editor. If an ACS journal editor considers Web posting to be "prior publication", the paper will not be accepted for publication in that journal. If you intend to submit your unpublished paper to ACS for publication, check with the appropriate editor prior to posting your manuscript electronically.

Reuse/Republication of the Entire Work in Thesis or Collections: Authors may reuse all or part of the Submitted, Accepted or Published Work in a thesis or dissertation that the author writes and is required to submit to satisfy the criteria of degree-granting institutions. Such reuse is permitted subject to the ACS' "Ethical Guidelines to Publication of Chemical Research" (<http://pubs.acs.org/page/policy/ethics/index.html>); the author should secure written confirmation (via letter or email) from the respective ACS journal editor(s) to avoid potential conflicts with journal prior publication*/embargo policies. Appropriate citation of the Published Work must be made. If the thesis or dissertation to be published is in electronic format, a direct link to the Published Work must also be included using the ACS Articles on Request author-directed link - see <http://pubs.acs.org/page/policy/articlesonrequest/index.html>

* Prior publication policies of ACS journals are posted on the ACS website at <http://pubs.acs.org/page/policy/prior/index.html>

If your paper has not yet been published by ACS, please print the following credit line on the first page of your article: "Reproduced (or 'Reproduced in part') with permission from [JOURNAL NAME], in press (or 'submitted for publication'). Unpublished work copyright [CURRENT YEAR] American Chemical Society." Include appropriate information.

If your paper has already been published by ACS and you want to include the text or portions of the text in your thesis/dissertation, please print the ACS copyright credit line on the first page of your article: "Reproduced (or 'Reproduced in part') with permission from [FULL REFERENCE CITATION.] Copyright [YEAR] American Chemical Society." Include appropriate information.

Submission to a Dissertation Distributor: If you plan to submit your thesis to UMI or to another dissertation distributor, you should not include the unpublished ACS paper in your thesis if the thesis will be disseminated electronically, until ACS has published your paper. After publication of the paper by ACS, you may release the entire thesis (**not the**

individual ACS article by itself) for electronic dissemination through the distributor; ACS's copyright credit line should be printed on the first page of the ACS paper.
