

## Photosynthesis and respiration - introduction

### **Assignment individual work:**

Prepare a short description of your photo (write down only key words and notes). Speculate on the connection between your photo and our topic, too.

*individual work - Einzelarbeit  
(to) **speculate on sth.** - to form an opinion about something without knowing all the details or facts (spekulieren)*

## Photosynthesis and respiration - introduction

### **Assignment group work:**

Prepare a group statement as to how your photos

- a) ... are related to each other
- b) ... are related to our topic.

In order to do so, present your photos to the others, take notes on the things you exchange, and discuss your findings. Write your statement on a DIN A4-sheet of paper and support it with explanations in key words.

*(to) be **related to sth.** - connected with something/somebody in some way (im Zusammenhang mit etw. stehen; verbunden sein)*

*(to) **support sth.** – to back sth. up (etw. unterstützen)*
